Here are important details about the order and what I am doing this year. I am not taking requests for specific items because so much is still unavailable, although availability is better. I have used my judgement about what I think is a reasonable list of items. I apologize if there are any items that you want that are not on the list. For instance one item I could not find were large pistol primers.

The items on the list are what I have found that I can get as of this time. It may be that when I place the order that may change, but I cannot control that. The same is true about the prices. The price on the sheet has a small increase from what the supplier lists – 4%. This is to cover shipping costs and possible hazardous shipping costs. **This is important – these prices may change once the order is completed so the club is not subsidizing people.** If you order something, please understand you cannot cancel it after I figure out the final number. I don't think they will change much but I want to make sure you know this.

I will stop taking orders on October 4. I would much prefer to get your request by email as opposed to by phone. I will place some of the order sheets at the trap range and the indoor pistol range also. You can mark it up and scan and email it. Eventual payment should be made by check made out to "CPFG"
