## LEGAL NOTICE

### Proposed Club Bylaw Changes

At the next monthly Members meeting, to be held on 20 June, the following change to Bylaws 3.2, 3.7, and 3.8 will be voted on.

Reason: To clarify that "Family" should actually read "Married Couple".

3.2 There will be ~~six~~ **five** classes of membership:

- Regular
- Military
- Honorary
- Permanent
- ~~Family~~
- e. Life**

~~3.8 Life Membership~~ **3.7 Life Membership** (renumber only)

~~3.7 Family Membership~~ **3.8 Married Couple Discount**

- ~~Any married couple may apply for a Family Membership. The couple shall be subject to the membership provisions of section 3.3 above~~

~~and, upon acceptance, each shall become a Family Member and have all rights and privileges of Regular Membership.~~

**A married couple may apply for two individual Regular Memberships, either at the same or different times, subject to Sections 3.1 and 3.3 above. The second Membership shall be discounted 50%.**

~~b. The Family Membership Initiation Fee and Annual Dues for the couple will be set at 150% of those charged for individual Regular Members.~~

This will require that Section 3.1, "Any couple joining as Family Members at the same time need only a single sponsor"

be changed to:

**Any married couple applying for Club Membership at the same time need only a single sponsor.**

- Empty the powder measure when done loading or you'll forget what's in it.
- Before you go and load a whole bunch of ammo, load just five and try them out.
- Make your own pet load chart. It beats having to remember (first mistake) or look up your load again and just maybe reading the wrong line (second mistake).
- Don't overdo crimping, it just crushes the case and you'll wonder why it won't chamber.
- NEVER, EVER, EVER mix powders. This practice is just stupid and proves that the factory really does know more than you.
- Hot loads aren't funny. If your cases won't eject, extract, or the cases split or blow out primers, **BACK OFF ON THE POWDER BEFORE YOU GET SOMEBODY KILLED.**
- Bullet pullers are worth their weight in

## Reloading Tips

gold compared to thrown away components.

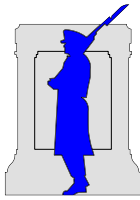

- Check your scale for level every time you use it. You can be off .2-.5 grains and not even know it.
- Maximum loads usually aren't the most accurate. About half way between minimum and max works the best for almost all powders.
- If the load manual calls for a powder with an H before the number, that is a Hodgdon powder, not IMR. Example: H4895 is Hodgdon, 4895 is IMR
- Drinking and loading do not mix. Actually, absolutely nothing mixes with loading. You need to concentrate on what you're doing. If you do other things while you load, please inform the shooters around you so they can find a safe place to hide until you leave.
- No two loading manuals will agree on a particular load. It's confusing, but that's just the way it is.

- If you load on a Dillon 550, the best way to temporarily stop loading for any reason - answering the phone, visiting the head, whatever - is to stop with the handle in the down position. That way, you'll know just where you are when you return.
- Don't replace one bullet weight with a heavier one and use the same powder charge. Sounds like common sense but I have known more than one person who ruined a gun by doing it. Pressure is calculated in the manuals. Changing anything changes everything.
- Use a LEE Factory Crimp Die. I talked to a friend one day and bought one for 44 Magnum. It turned 2" groups at 50 yards into 1" groups. It really works. I have since bought them for all calibers I reload. My 30-06 is a Remington 7400 and I shoot 1" groups at 100 yards after using this crimp die.

## FLAG DAY 14 JUNE

## FATHER'S DAY 16 JUNE

## 21 JUNE 01:04 EDT

## Politics & Legislation

by John Faro, Political Junkie

Let's start this month by reviewing the accomplishments of our "Tyrant in Chief" who resides in the White House.

He exploded the size, reach, and cost of government; he granted amnesty to millions of illegal aliens through the back door; he nationalized our health care; he refused to defend the Defense of Marriage Act, which passed with bipartisan majorities in Congress and was signed into law by President Clinton; he flagrantly failed to enforce our immigration laws; he reduced our freedoms and burdened our nation with unsustainable debt. (Source Judicial Watch)

The silver lining in this cloud is the fact that he is the greatest unintentional firearms salesman the world has ever had to endure. In my humble opinion, his administration is falling apart at the seams. Beware: his all-out attack on the Second Amendment is far from over.

Will the Benghazi scandal or the IRS misuse of its authority be his downfall? I doubt it. The good side of all this is that a lot of good people are questioning what is going on inside the Washington DC beltway, the real Disneyland of the USA. His die hard supporters are not going to see

anything wrong in what he has done or allowed to happen on his watch. Don't waste your time trying to convince them. We need the swing voters. You know, the ones that stayed home and did not vote because they didn't like Romney. Concentrate on them and we might be able to start turning things around in 2014.

Senator Kelly Ayotte did exactly what we sent her to Washington to do. She and a handful of other senators scrutinized the proposed firearms legislation and forced debate of the issue on the senate floor. Her final vote proved to a lot of doubters, including me, that she is one smart lady who knows what she is doing. Your support of Senator Ayotte would be appreciated.

In the Granite State, HB-135 is still an active bill. The stonewalling tactics of those who would strip your right of self-defense, wherever you have a legal right to be, are waiting to garner enough votes to pass this onerous legislation. You have to keep the pressure on our elected state legislators to kill this thing dead in its tracks. When you have seconds to decide what to do in a life or death situation you don't have time to ponder the legal aspects of your actions. What you need is professional training to recognize the danger you may or may not be in. The responsibility is yours and yours alone.

For our Massachusetts members, the Gun Owners Action League (GOAL) is in the forefront of trying to protect your firearms rights that still exist in the Bay State. If you have not joined this organization you should consider doing so. They need all the physical and financial support they can get to continue the legislative fight to protect your rights. Going to political rallies and town hall meetings in support of GOAL is more important than you realize. Be vigilant to survive.
