Right to Carry?

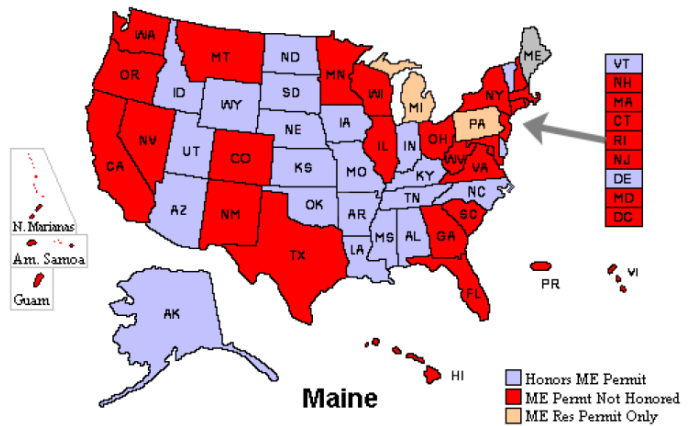

The maps below show where you can legally carry a concealed firearm if you have a License to Carry (blue states), where you can legally carry only if you have a resident LTC (tan states), and where you can't at all (red states).

This map shows where you can legally carry if you have a New Hampshire License.

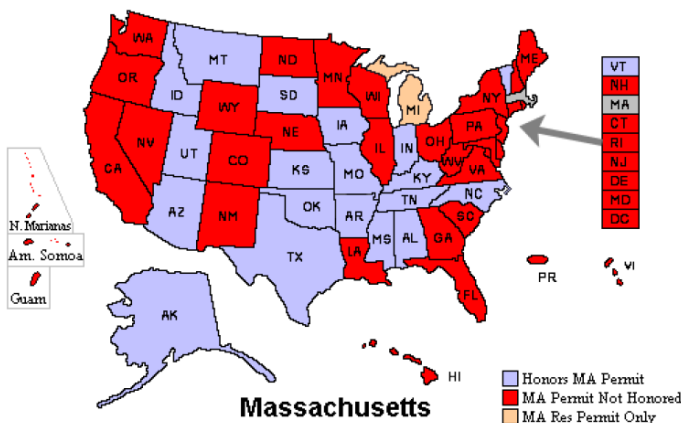

NH honors resident licenses from AL, AZ, AR, CO, FL, GA, ID, IN, IA, KY, LA, MI, MO, MS, NC, ND, OK, PA, TN, UT, WV, and WY, but no non-resident licenses.

This map shows the same data if you have a Maine LTC.

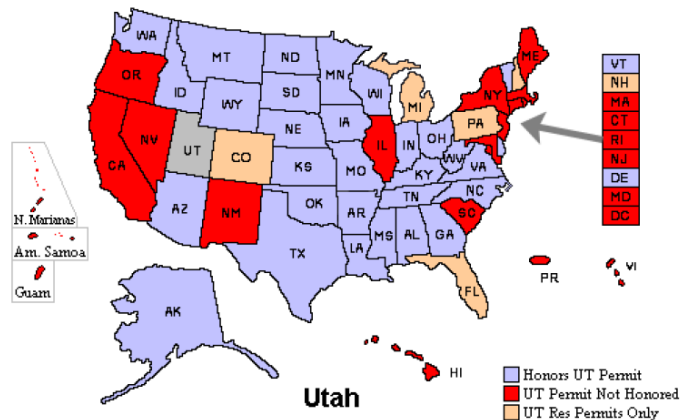

ME honors resident licenses from AR, DE, LA, MI, ND, PA, SD, and WY, but no non-resident licenses.

This map shows the same data if you have a Massachusetts Class A LTC.

Massachusetts doesn't honor any other states' licenses at all. (Why are we not surprised?)

And here's the map of states where you can legally carry a concealed firearm if you have a Utah License to Carry.

Utah honors all other states Permit/Licenses. and honors non-resident Permits/Licenses from the states they honor.

(Information obtained from <http://www.handgunlaw.us/>, and is current as of 20 January 2015.)

Obviously, if you travel around the US, and you carry a concealed handgun, it pays to have a Utah License, in addition to whatever resident License you may have. We will be holding a Utah Non-Resident License Training Class at CPF&G Club on Saturday, 21 March. Successfully completing a Utah approved class is a prerequisite for obtaining a Utah License.

The course will be open to the public, but will be limited to 15 students, and CPF&G Club Members will have priority. All students must register in advance. No walk-ins will be permitted. To register, or for more information, go to www.countrypondfishandgameclub.com/training.html#UTAH, or email Piney at [THIS LINK](#).

“Ladies Only” NRA Basic Pistol Shooting Course

21 February 2015

The NRA Basic Pistol Shooting Course introduces students to the knowledge, skills, and attitude necessary for owning and using a pistol safely. This course will be limited to female students only, in an effort to eliminate any potential "macho" behavior, which may intimidate novice female shooters.

The student will learn about pistol parts and operation, ammunition, gun safety, pistol shooting fundamentals, and pistol shooting activities. This course will also help prepare the student for participation in other NRA courses.

THIS COURSE IS LIMITED TO 10 FEMALE STUDENTS

Absent Companions

Richard Bowen Member #231

Richard J. "Dick" Bowen, age 83, longtime resident of Plaistow NH, passed away peacefully on Saturday, June 21, 2014 in Haverhill, MA. He was born on February 19, 1931 in Brockton, MA the son of the late Edmund and Elsie (Moberg) Bowen. He was raised and educated in Palmer, MA and graduated from Palmer High School Class of 1949. He attended Springfield College.

Dick enlisted in the US Army Air Corps right out of high school. He served during the Korean War.

He worked for many years at MIT-Draper Labs in Cambridge, MA and was involved with design projects for the Apollo Space Program. He also worked for Raytheon Corp. on their missile systems. He had worked for Kollsman Instruments in Merrimack, NH on radar altimeters and thermal night sights projects for the M1 Tank. He retired in the early 1990s.

Dick was an avid lifelong shooting enthusiast and gun collector. He loved history and was a founding member of the Plaistow Historical Society. He helped to plan the first Plaistow Old Home Days event. He was an active member of Country Pond Fish & Game Club in Newton for many years. An avid outdoorsman, he loved camping and canoeing. He enjoyed woodworking and made many projects that were given as gifts to family and friends. As a younger man, he enjoyed car rallies and races for many years.

He is survived by his daughter, Robin J. Bracero and husband, Jorge of Manchester, NH. His sons, Alan D. Bowen of Plaistow, NH, John P. "Jack" Bowen and wife, Denise of Kingston, NH and Christopher E. Bowen and wife, Lea of Plaistow, NH. 11 grandchildren and 12 great-grandchildren also survive him.

## CPF&G Club Centerfire Pistol League

by Jim Graczyk

This year, the Country Pond Fish & Game Club Centerfire Pistol League, open to all members, starts on February 11. I thought I would start this article with a little bit of history, because I think it provides some basis for how the league runs and explains the differences between it and the .22 Rimfire League. When I joined CPF&G Club about seven years ago, at the behest of my good friend Dick Chavers, he “dragged” me back into shooting sports that I had much enjoyed as a youth. He taught me the basics of pistol shooting and reloading, and I often admired how he would just stop some newcomer to the range and ask – “Do you mind if I give you a few pointers?” Finally, he said to me one day that he was running a centerfire league and invited me to join in. He told me that the way it was conducted was less formal and not as structured as the rimfire league. He also wanted it to be fun and also instructional. Weekly scores were tracked with pencil and paper, but not consistently, and were not disseminated. Of course, this is not to disparage or criticize the Rimfire League at all. I activity participate in that league and really enjoy it. As I became more involved and began to help run the Centerfire League, I have tried to carry the principles that Dick espoused forward. So here are the basics.

The league is at the same time as the rimfire league – Wednesdays from 1700 to 2000. It convenes for seven nights with the last session this year on March 25. I have sometimes been asked why it is not longer. The answer to that is that prior years experience has shown that, with the onset of spring, attendance has suffered with the advent of spring chores and activities - fishing and spring trap come to mind!

Three targets are shot each night; slow, timed, and rapid. The times - 10 minutes for slow fire, 20 sec for each five shot string for timed fire - are the same as for the Rimfire League.

However, we have always done what we call a “modified” rapid fire – using 20 seconds for that as well as for timed fire.

As far as firearms are concerned, we have little restrictions. If you want to use a different one each week that is fine. Changing firearms during a session however it not allowed. Finally, Club rules regarding caliber sizes that are allowed obviously apply.

It is a participant’s choice as to whether they shoot one or two handed, and this is not tracked.

The last night is a “fun night” and no scores are kept. We traditionally do different activities like shooting at backward targets, small stickers on regular targets, opposite hand shooting, and things like that. Dick would sometimes bring some of his firearms that were a bit unusual – single actions and the like. Any ideas that participants have would be welcome. We also do pizza on the last night and have some awards. Last year we awarded .22 ammo for high average in the various categories – Slow Fire, Timed Fire, Rapid Fire, and Overall Average. We did this for optical sights and iron sights as separate categories. Drawing from my trap fun shoot experience, we also did a “Lewis” award. You have to ask Clyde Henshaw where that name comes from! Anyway, basically you rank order everyone’s scores and divide the list into an upper and lower class. The top

of the lower class gets an award. It is a way of trying to spread the awards around.

As far as tracking scores, last year we did use a spreadsheet to track scores and email was sent. This was the first time we did this and people seemed to like it. Piney has developed a new spreadsheet for the Rimfire League and we will be using a modified version of that to keep track of weekly results. With that spreadsheet, results will be posted on our website instead of being sent by email. Finally, unlike the Rimfire League we will not have teams or calculated handicaps.

We will be having a meeting on February 4 at 7:00pm, prior to the start of the league. At that time, we can collectively decide if we want to change how anything works. That is the day of the last Rimfire League match. Anybody missing the meeting because they are on the range shooting can just be brought on board afterwards. I would mention that my co-worker, Chris Gordon, is becoming bionic with two new knees. He is planning on helping out as best he can but I am looking for someone to help out running things once and awhile.

Finally, if you know that you will participate, please email me at [jamesfgraczyk@gmail.com](mailto:jamesfgraczyk@gmail.com) and let me know. I want to do as much preparation of the record keeping as possible ahead of time.

## Politics & Legislation

by John Faro, Political Junkie

FYI: If you have been following what the elitists are up to in Washington DC, better known to political activists as Disneyland North, your fears for the future of our great nation are well founded. Our Commander in Chief is slowly achieving his goal of turning us into a dictatorship. His idea of working with the legislative branch is “do what I say and sit down and shut up”. This is creating cooperation and bipartisanship with our federal legislators? Calling, writing, and mailing your comments or complaints to your respective federal legislators is more important now that Obama has nothing to fear for the next two years. The damage he has done to our country in the last six years will pale to what he can accomplish with the help of Democrats in the next two years. With a little luck, the folks we sent to Washington in the last election to stop this gentleman will get their collective act together and do the people’s business with the Constitution of the United States as their guide.

The statehouse in Concord has turned into an ideological battlefield. The saga of Jasper vs O’Brien has generated more activity than proposed legislation and there are a few insidious bills in regards to our firearm rights. House rules committee has been the first skirmish in the House. The leadership (Jasper) wanted to increase the number of people to second a motion for a roll call vote (this is how we know who voted for what) was tabled. This may come back because it is only wounded not dead. The rules amendment to not allow concealed guns back in the House Chamber and surrounding area failed.

All of the pro-gun organizations in our state had hoped for a legislative session where we could accomplish a lot of the pro-gun legislation we have all been working for over the years. Right now we are all fighting to keep the House and Senate from imploding. We will be calling on you, the law abiding citizen and firearm owner, to help us in our legislative endeavors.

The Criminal Justice Committee seems to be in a mess. Obviously this committee has a very large influence on our firearm freedoms. An inside source, who will remain nameless for the time being, has stated that the turmoil between the Jasper RINO’s, his Democrat allies, and Conservatives has had a devastating effect on moving pro-gun legislation in a positive direction. The advance of anti-gun legislation is being maneuvered through the legislative process. More to come on this situation as it becomes available to me.

Contacting your representatives, pro-gun or anti-gun, is something we encourage the firearms community to do as often as you can. Pro-gun legislators should hear from all of us to thank them and support them in their efforts to protect our rights. Anti-gun legislators should hear from you about your displeasure with what they are doing to undermine our firearms rights and freedoms. You and your fellow gun owners are our frontline troops when it comes to influencing our legislators when we discern that they are turning their collective backs on us.

Eternal vigilance is the price we all must pay to keep and expand our firearm freedoms. Joining Gun Owners of New Hampshire, the NRA, the Gun Owners of America or Gun Owners Action League in Massachusetts will help to make gun owners a voting powerhouse they dare not ignore.
